A Broad and Balanced Curriculum in Primary Schools Susan Ogier,2022-01-26 Primary schools and teachers in England are tasked with providing a Broad and Balanced curriculum. As pressures of standardised testing and the focus on English and maths impact on teaching time, how can teachers ensure that they remain focused on this as an objective? How do we ensure that the curriculum truly is Broad and Balanced? How do ensure that we are educating the whole child? This book provides both discussion of the current challenges and practical guidance and support on how to tackle them. It informs and inspires new teachers to teach across the curriculum, and to empower the next generation of children to explore what is possible for them within their own future lives. This second edition includes new chapters on curriculum design; alternative environments and learning spaces.

Teaching Personal, Social, Health and Economic and Relationships, (Sex) and Health Education in Primary Schools Victoria Pugh,Daniel Hughes,2021-01-28 Personal, social, health and economic education (PSHE) and relationships, (sex) and health education (R(S)HE) are often undervalued in school and are frequently seen as an add-ons. But when taught well, PSHE and R(S)HE can enhance not only other subjects but strengthen school safeguarding, develop pupil well-being

and improve pupils' progress and resilience in learning. Underpinned by a range of contemporary research and illustrated through examples of classroom practice, the expert team of teacher educators look at a range of curriculum areas and contemporary issues to explore how PSHE and R(S)HE education can enhance other curriculum areas. As well as showing how pupils' life skills can be developed, they also explore how teachers' understanding of how PSHE and R(S)HE can be implemented without additional planning or expensive resources. The book takes an inclusive understanding of both diverse families and relationships throughout. Topics covered include: -social media, online presence and critical literacy skills - mental health coping strategies -plastic reducing -topical, sensitive, controversial issues (TSCIs) Covering the whole primary spectrum from Early Years to Key Stage 2, case studies from each phase are included within each chapter to help practitioners to relate the material to their own classroom. Points to consider for your setting are included and guidance on further reading provides reliable direction for additional information.

Primary Teaching Catherine Carden,2022-06-08 The second edition of this core text from Learning Matters asks: What is teaching? Does curriculum really matter? Does behaviour need 'managing'? What is a learning environment today? Does my classroom reflect the identities of all of my learners? How can I bring the theme of sustainability to my teaching? Discussing these and many more, it covers the contents of professional studies modules and goes beyond to support trainees on placements and in their learning on the course. Five new chapters are added for this edition discussing themes of sustainability, teacher self care, diversity in the curriculum, sex and relationships education and our new understanding of learning environments. Learning features throughout have been designed to help students develop their understanding, broaden their perspectives, think more critically and apply theory to practice. These include: Case Studies to apply learning to real-life school contexts. Key Readings to encourage wider reading, broaden perspectives and offer practical ideas for the classroom. Key Theory features introduce and summarise big ideas, theories and research. Critical Questions direct reflection, help students engage with what their reading and encourage critical responses. Classroom Links highlight good practice, provide practical ideas and show how to implement these in the classroom. Assignment features offer helpful points to consider and practical advice for writing assignments on chapter topics, which act as great starting points.

Sex and Sexualities in Ireland Barbara Górnicka,Mark Doyle,2023-12-02 This edited collection provides an invaluable resource of seventeen chapters from a wide range of academic disciplines. These chapters place sex and sexualities in Ireland in historical context and take the reader through the structural changes that have transformed the expression of sexuality in Ireland from one of self-denial to self-expression. The collection does not however unquestionably assume a linear narrative of progress: new issues and challenges are also addressed throughout. This book will be of interest to students and scholars from a range of disciplines including sociology, social policy, history, media, gender studies and psychology. The collection is divided into six separate but interlinked thematic sections: Sexualities in Historical Irish

Contexts, Young Adults, Sexual Health, and Education, Sexual Practices and Health, Minority Sexualities and Genders, Sex Work in Ireland and Activism and Contestation.

Sexuality Explained Louise Kirk,2013-02 *Sexuality Explained: a guide for parents and children* underpins parents in their role as first educators of their children. It draws on the latest knowledge of the human body to show how mind, heart and body interplay in our sexual makeup, and how the life-giving and love-making aspects of the sexual act are each designed for permanence. The Guide works at many levels. By drawing the reader into a succession of conversations between a mother and her daughter, her father and her brother, a full picture of the biology of reproduction is created in a friendly way. The stories give parents ideas on how they might converse with their own children. The text is necessarily comprehensive, to answer possible questions, and to make sure that the parents know more than what is now taught in school biology, which can be checked for accuracy. Children vary enormously in their maturity, which is one reason why it is best that they are taught about sex and sexuality individually and, if possible, by members of their own family who know and love them. The age range set against each chapter is for guidance only. Parents may use the Guide in a variety of ways. They can let the Guide do most of the work for them, reading it out loud with their children. They can give a chapter to older children to read on their own, being ready for questions. Or they can absorb ideas to speak in their own words as occasion arises. To aid discussion and to give a framework for homemade lessons, each chapter ends with a glossary and a list of points to remember. The hand-drawn biological drawings, all of which have been specially commissioned, have been reproduced at the back of the book to be cut out and arranged in any order. The Guide is principally designed for parents, but it can also be read by young people on their own, and later chapters might be used by teachers and youth leaders for student workshops. There is no religious teaching but the Guide starts from the premise that all human life is of equal dignity and worthy of respect.

The Song from Somewhere Else A.F. No one likes Nick. He's big, he's weird and he smells - or so

everyone in Frank's class thinks. And yet, there's something nice about Nick's house. There's strange music playing there, and it feels light and good and makes Frank feel happy for the first time in forever. But there's more to Nick, and to his house, than meets the eye, and soon Frank realises she isn't the only one keeping secrets. Or the only one who needs help ... A poignant, darkly comic and deeply moving story about the power of the extraordinary, and finding friendship where you least expect it. Written by the author of the critically acclaimed *The Imaginary* and illustrated by award-winning illustrator Levi Pinfold, this is perfect for fans of Roald Dahl and Neil Gaiman

Pushing the Boundaries of Human Rights Education Benjamin Mallon, Fionnuala Waldron, Caitríona Ní

Cassaithe,2023-12-01 This book pushes the theoretical boundaries of human rights education, engaging with complex questions of climate-related injustices, re-imagining education through a decolonising lens, and problematising the relationship between rights and responsibilities. It presents international studies of HRE in varied contexts (e.g. Uganda, Japan, Ireland) to explore the views and experiences of children who identify as human rights defenders, initial teachers' understandings of concepts such as teacher agency in conflict-affected settings, and the barriers to children's political agency. The book also highlights HRE in practice including participatory research with very young children as co-researchers and realising rights through play pedagogies, creative writing approaches and picturebooks. An HRE lens is also brought to bear on emerging subjects such as relationships and sexuality education and well-being. Aimed at educators, researchers and practitioners, and engaging with a range of concepts, contexts and contemporary challenges, this book offers new insights into HRE, particularly in the context of issues relating to children's rights education and participation.

Refractory Status Epilepticus Xuefeng Wang, Shichuo Li, 2017-09-05 This book aims to offer the accumulated fertile experience of treating drug-resistant epileptic patients collected over the past few decades, focusing on aspects of neurology, neurosurgery, emergency care, critical care medicine and basic medical research. Refractory status epilepticus is one of the most common severe and acute diseases in neurology and neurocritical care; it is also the main cause of death in epileptic patients. In the context of prevention and treatment processes, it is not only necessary to terminate epileptic seizures, but to also address the disruption of the patient's internal environment and provide critical life support. Effective treatment calls for multi-disciplinary support from neurology, neurosurgery, emergency care, critical care medicine, and other fields. Further, since the clinical features of epileptic seizure are not specific, it is necessary to differentiate it from other diseases that produce convulsions, disorders of consciousness, syncope, mental and behavioral disorders, myoclonus, etc., to avoid misdiagnosis. In this book, it comprehensively and systematically describes the basic knowledge as well as prevention and treatment tips, providing an invaluable reference resource for medical students and professionals in neurology, neurosurgery, emergency care and critical care medicine.

Diverse Voices in Educational Practice Alexandra Sewell, 2022-11-14 This practical workbook supports teachers seeking to sensitively understand and respond to the opinions and perceptions of critical stakeholders in student learning and development; pupil voice, parent voice, and professional voice are introduced and explored. A wide range of expert educator and academic contributors ensure that diverse voices are meaningfully understood, with chapters placing an emphasis on minority and traditionally marginalised groups, including SEND, LGBTQIA+, and Global Majority students. The workbook advocates a clear and inclusive ethos and demonstrates how voice work can help to decolonise the curriculum, promote a

positive LGBTQIA+ friendly school climate, and value pupil involvement. Moments for personal reflection, activities, and action plans allow practitioners to consider the role they play in facilitating the effective inclusion of those not normally involved in knowledge construction and decision-making processes. Blending key theory with practical strategies and takeaways, this workbook is an essential tool for practising primary and secondary teachers and teaching assistants, as well as educational psychologists, school counsellors, and other educational professionals interested in promoting inclusive voice practices.

How Do I Answer That? Rachel Scales, 2021-03-08 When it comes to those difficult questions about sex and relationships, how do you strike the balance between an answer that is professional but open, correct but doesn't create panic? Each chapter includes a full list of the questions to be tackled, teacher guidance highlighting important points, and model answers. Diagrams and photos are included to aid understanding and there is helpful signposting to further reading. Potentially unfamiliar topics, such as laws surrounding sexting and LGBTQ+ terminology, are clearly explained and common misconceptions and myths are dispelled. Based on years of experience, this handy text provides clear answers to the questions young people ask about RSE to help you increase your knowledge, gain confidence and ensure pupils receive the most accurate and up to date information.
